- ✓ Yard Clean-up billed by the hour, \$68.00 per man, per hour
- ✓ Shrub Trimming billed by the hour, \$68.00 per man, per hour

What you can expect:

The season begins in March and April with springtime cleanup and short mowing to get the embedded debris cleaned up from the turf areas, edging, and fertilizer and weed control. Pre-Emergent Weed Control is applied in late March to early April, and is applied the same day as the first application of Fertilizer and Weed Control. The Pre-Emergent Weed control takes care of the crabgrass and other weed grasses. Core aeration begins in early April, mowing begins in mid to late April, and sprinklers should be ready for activation in the last week of April or the first week in May. Edging is scheduled monthly through the season. Weed control is applied on an as-necessary basis to keep your lawn and concrete areas weed free. Fertilizer is applied 5 times at approximately 6 week intervals. We mow into late October. The irrigation system winterizations begin in mid October. We are available for cleanup and shrub trimming services when you are ready for these services anytime through the season.

Why we are different:

We are much more than a “guy in a truck”. We give you worry free, full maintenance service. Our services are designed to give you the most value for your property investment. We believe in protecting your investment so we are licensed and insured. Our 30 years in business says we are Tried & True to you.
